

Outdoor UPS Systems

with SSG-RP Industrial Ultra-wide Temp UPS, 1 to 3kVA

Key Advantages:

- Ready-to-install
 - Falcon's SSG-RP pre-configured NEMA 3R-rated UPS systems provide the ideal solution for outdoor and indoor use. The UPS enclosures are available in various sizes.
- -30°C to 65°C temperature range
 The SSG UPS is agency-certified
 (UL, cUL, CE) to operate reliably in ultra-wide temperature environments.

 All 120V models are also UL 508 listed.
- High-reliability: true on-line, industrial UPS

Tested and designed with robust components and materials, the SSG-RP assures reliable operation and a long service life in very demanding environments. It is a true on-line industrial UPS.

Extreme temperature batteries

The batteries used inside the UPS were specifically selected due to their wide operational range of -40°C to 80°C. They have a 10-year life at 25°C.

- Extended battery banks & other options
 The battery banks are easily expandable
 to provide minutes to hours of extra
 battery runtime. Other options include:
 environmental protection, remote UPS
 management, environment sensors, relay
 cards and much more.
- Falcon recognized for quality and reliability

Falcon Electric is a recognized authority in industrial UPS solutions. Our technical expertise assures you find the right solution – the first time.
